REASONS FOR ALLOWANCE

1. Claims 1-19 and 21-31 are allowed over the prior art of record.
2. Claims 20 has been cancelled.
3. The following is an examiner's statement of reasons for allowance: The Applicant arguments filed on 12/29/2006 with respect to claims 1-19 and 21-31 are persuasive. The feature of independent claims 1, 14, 21, and 30 directed towards allowable subject matter is the feature comparing the sensed signature to predetermined signatures of light sources of different types to identify a type of light source that corresponds to the ambient light, as well as, the predefined color adjustment being configured to reduce a change in color rendition introduced by the type of light source identified as corresponding to the ambient light. The prior art of record, Funston et al. teaches of color adjustment and signature comparison in a camera display however as argued by the Applicant Funston fails to increase a color cast introduced by ambient light and also fails to project light to create the image. Therefore said features of claims 1, 14, 21, and 30 in combination with the other limitations of the claims make them allowable over the prior art of record.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
